Wendover Air Force Base,
Supply and Equipment
Warehouse
(Building No. 428)
HABS No. UT-125-I
Page 1

This Supply and Equipment Warehouse was built adjacent to the Control Tower and slightly north of the anchorage apron in 1942 in conjunction with Operation building no. 426 as part of the expansion of facilities at the base. Containing only 64 square feet, it was built as a "Mobilization," "Semi-Permanent" structure for \$150.00 to warehouse equipment used in the operations complex.

The 8-foot-2-inch by 8-foot-2-inch building has a concrete foundation and floor. Its walls and roof are of corrugated metal. The roof gables cantilever about 12" over their end walls. A wall-door on the south end and a square, lowered vent in the east wall are the only penetrations of the exterior walls. The small warehouse was equipped with only a hydrant fire extinguisher.
